

S. No.	Names	Role	Title
1	Dr. Shrikrishna	Faculty	Interrelationship Between Chronic Rhinosinusitis, Sleep Apnea Risk, and Cardiovascular Health in Women: A Cross-Sectional Comparative Study
2	Dr. A. Chaitanya Pratyusha	Faculty	Comparison of Perioperative Cardiovascular Responses to General Anaesthesia in Premenopausal and Postmenopausal Women undergoing general anaesthesia: A Prospective Observational pilot study
3	Dr. Vishakha Jain	Faculty	Left Ventricular Diastolic Function in Obese Women: A DEXA-Based Cross-Sectional Study Comparing Sarcopenic and Non-Sarcopenic Obesity Phenotypes
4	Dr. Swarna Latha Seelam	Faculty	“Sex-Based Differences in Coronary Artery Disease on CT Coronary Angiography in Indian population;A single centre prospective Study”
5	Dr. Mishu Mangla	Faculty	Comparing Autonomic Function in Growth-Restricted and Appropriate for-Gestational-Age Fetuses through Assessment of Fetal Heart Rate Variability
6	Dr. Madhuri Taranikanti	Faculty	Assessing cardiotoxicity using interbeat interval variability among women receiving chemotherapy for breast cancer
7	Dr. Vandana S	Faculty	Association of Meditation Practice with Arterial Stiffness in Women: A Non-Pharmacological Approach to Cardiovascular Risk Modulation
8	Dr Alka Bhingardeo	Faculty	Multislice Cardiac CT Study of Pulmonary Veins and Left Atrium Application in Atrial Fibrillation
9	Dr. Pranitha Vallala	Faculty	WO-MEN IDIA - Assessing Gender difference about Oral Health Knowledge, Status and Treatment Needs in Patients with Cardiovascular Disease Attending a Tertiary Care Center in Yadadri Bhongir, Telangana: A Cross-Sectional Study
10	Dr. Sravan Kumar	Faculty	Association of Baseline Serum 25-Hydroxyvitamin D Levels with Cardiovascular Disease Among Adult Women: A Hospital-Based Cross-Sectional Study
11	Dr. Rama Lakshmi Makineedi	Faculty	Prevalence and Determinants of Cardiac Arrhythmias and Conduction Abnormalities Among Women Aged ≥ 40 Years in an Urban Community of South India
12	Dr. Anagha Sahasrabuddhe	Faculty	Neuro-Cardiovascular Dysregulation and Unrecognized Cardiovascular Risk in Young Women: Association of Metabolic Syndrome with Early Muscle and Vascular Dysfunction
13	Dr. VINU VIJ	Faculty	Chronotype and Social Jetlag in Shift and Non-Shift Women Nurses: Association of Circadian Misalignment with Lifetime Cardiovascular Risk and Potential Mediators
14	Dr. Suthanthira Kannan	Faculty	Artificial Intelligence–Enabled Assessment of Burnout as a Determinant of Predicted Cardiovascular Risk among Women Nurses: A Cross-Sectional Study Using QRISK3

15	Dr. Venmathi Elangovan	Faculty	Lifestyle and Diet Scores (LMA-21) and 10-Year Cardiovascular Risk among Women Nurses: A Cross-Sectional Analytical Study
16	Dr. Suguneswari Giddi	Faculty	A COMPARATIVE STUDY OF LIPID PROFILES AND hs-CRP LEVELS IN RELATION TO CARDIOVASCULAR RISK AMONG PRE AND POST-MENOPAUSAL WOMEN
17	KANIKA DHIMAN	Student	Correlation between incidentally detected coronary artery calcification and hepatic steatosis in females undergoing non-contrast CT Chest- A Cross-Sectional Study.
18	KARMVIR SAINI	Student	Correlation between the Epicardial fat pad on CT Coronary angiography and Appendicular lean body mass , measured on DEXA scan.
19	Manas	Student	Temporal Trends in Cardiac Health Awareness Among Women: A Two Decade Study at a Tertiary Care Hospital in North India
20	Shahirajpreet Kaur Gill	Student	METABOLIC SYNDROME AND TEN-YEAR CARDIOVASCULAR RISK AMONG PERIMENOPAUSAL WOMEN IN A TERTIARY HOSPITAL IN NORTH INDIA: AN OBSERVATIONAL, CROSS-SECTIONAL STUDY
21	Kratika Mulchandani	Student	Heart Rate Variability in Breast Cancer Patients on Radiotherapy and Healthy Controls: Comparative Analysis
22	ATUL KUMAR SHARMA	Student	Assessment of Bioelectrical Phase Angle as a Non-Invasive Marker of Cardiovascular Risk in Obese Females
23	Perumallapalli Nirmal Nishita	Student	Prevalence of Cardiovascular Diseases Among Antenatal Women attending a Private medical College
